Building Global
Automotive Careers

INTERNATIONAL AUTOMOBILE CENTRE OF EXCELLENCE

India's first-of-its-kind apex center for automobile training with latest 'state of the art' infrastructure & technical labs

ABOUT iACE

iACE is a leading institution committed to creating global career opportunities for Indian talent. By bridging the skills gap in the automotive sector, we empower professionals to excel in international markets, especially in Germany—the hub of automotive innovation.

Skill Upgrading

Empowering professionals with industry-relevant expertise for global careers.

Hands-On Training

Providing practical exposure to master the latest automotive technologies.

Career Bridging

Connecting skilled talent to international job opportunities, such as Germany.

AUTOMOBILE TRENDS AND GLOBAL DEMAND

“Car & Automobile Manufacturing Market is Projected to Grow at 8.7% CAGR, Reaching US\$ 6,457.67 Billion by 2034.”

AUTOMOTIVE SKILLS DEMAND

The global automobile industry is undergoing rapid transformation, with technological advancements driving demand for skilled professionals. Germany, a leader in automotive innovation, requires lot of skilled individuals annually to meet its workforce demands. The iPGP course is your gateway to entering this high-demand market. At iACE, we stand as a bridge between aspiring professionals and global opportunities. Through our industry-aligned-global curriculum, hands-on training, and German language certification, we equip candidates with the skills and credentials needed to thrive in international markets.

iPGP

“From India
to Germany”

The International Post Graduate Program (iPGP) is a 1 year intensive course designed for both recent graduates and experienced professionals who have completed a Diploma, B.Tech, or B.Eng in the fields of Automobile or Mechanical Engineering. This program combines theoretical knowledge, practical training, and proficiency in the German language to ensure that you are industry-ready and equipped for global opportunities.

KEY HIGHLIGHTS

- **Comprehensive Training:** Gain expertise in every aspect of the automotive value chain, from fundamentals to advanced systems.
- **German Language Proficiency:** Achieve B1 certification to communicate effectively and integrate seamlessly into German workplaces.
- **Guaranteed Employment*:** Secure a permanent job in Germany with a competitive starting salary and equal benefits as local professionals.
- **Global Certification:** Earn globally recognized certification, boosting your credibility and employability in the global market.

COURSE STRUCTURE

The iPGP course curriculum is meticulously designed to provide a well-rounded learning experience. Gain in-depth knowledge of mechanical, electrical, and electronic systems along with German language training (attain B1 proficiency through certifications such as Goethe/TELC/OSD). The course follows a trimester format.
